STATE
MENT

OF INTENT

Due to historical and societal events, it is understood that the state works to oppress rather than protect the rights and safety of every individual. For this reason we have created a pocket-book filled with alternative resources to contacting the police, the government, and the University of California. We encourage you to keep this booklet handy to use in times of need. We advise you to always be aware of your surroundings and conscious of those around you. Your experiences are valid and we hope this zine provides you comfort and safety.
